

First Aid Fundraising

Australian Pacific Training Solutions is proud to offer you the opportunity to offer first aid training to members of your community as a fundraising activity.

Simply put this will not only raise valuable funds for your school/childcare centre, it will also raise safety in your community.

How First Aid Fundraising Works

Australian Pacific Training Solutions will run first aid courses at your venue that you can promote to members of your community*. Australian Pacific Training Solutions will run these courses at a vastly discounted rate and you can charge the community members either our recommended retail price or a price you feel is appropriate.

Example: *A level 2 first aid course for 20 participants*

APTS will charge only \$100 per person

Participants will pay the RRP of \$145 per person

Therefore from just one course you can raise \$900

Advantages of the Fundraising Program

- ∑ Increase community safety
- ∑ Raise valuable funds
- ∑ Provide a great opportunity for community members to network

How to get started

Contact your APTS training consultant and decide on a date(s) for the training. We will send you all the required information and materials for the estimated number of participants.

One week before the course is due to start we will contact you to confirm numbers and only invoice you for the number of participants attending the course.

Simple as that!

Please contact your training consultant to discuss this opportunity further.
